

Become part of our SWARCO team as

Assistant Electrical Technician

Location: Dublin, Ireland | Full time

Your Challenge

At SWARCO, we work together as a team to shape the future of mobility. Traffic management is an essential part of modern mobility. **Intelligent Transport Systems (ITS)**, monitors and controls various modes of traffic in order to avoid congestion and to improve traffic flow. The goal is to enable people to get to their destinations as fast as possible. At the same time, ITS are used to reduce the negative impact of mobility on the environment, e.g. to reduce air pollution. It also improves traffic safety for all road users.

In the spirit of SWARCO founder Manfred Swarovski we pride ourselves in being **agile, innovative, reliable, trustworthy, passionate, and cooperative**; and will not hesitate to go the extra mile for you. Swarco are growing, grow with us!

We have a really exciting opportunity for an Assistant Technician to join our expanding maintenance team in Ireland across our contracts.

Key responsibilities

- To assist the technical team, install and maintain Intelligent Transport Systems (ITS) Equipment to customer specifications and ensure contractual obligations, terms and conditions are met
- Competently liaise with both customers & managers
- Contract Administration example: timesheets and job numbers, stock requisitions, vehicle mileage forms
- Through knowledge of company Health & Safety policies, procedures, and methodologies
- Maintain company vehicles, equipment, tools, and PPE in a serviceable condition
- Guidance, training, sharing of job-specific knowledge and experience, and provide support to all colleagues as required
- Assistance responding to fault reports and call outs within contractual timescales (KPI's) and undertake activities as assigned by the SDM
- Assistance in fault records data recorded on Fault Management System
- Assist with new project work installations, ensuring they are of a high standard and safe working practices are followed whilst working on site
- To ensure that all PPE is being correctly worn, appropriate to the task and in line with the RAMS
- Ensure your vehicle, tools, spares, and equipment to be used are in a safe and serviceable condition
- To be available to attend training courses and toolbox talks, whether they are locally or nationally based
- KPI Adherence for maintenance activities, assist a Senior Technician if required on completion of project works ensuring a successful switch on of any new installations
- To assist with the on-site development of apprentices
