

Become part of our SWARCO team as

Software Development Engineer

Location: Basingstoke, United Kingdom | Full time

Your Challenge

We have an amazing opportunity for a Software Development Engineer to join our Engineering Development Team. Please note this role is Basingstoke/Hybrid based so you must live within a commutable distance of the Basingstoke office.

In this role, the Software Development Engineer will be responsible for central cloud system software development for Swarco ITS in the UK and liaising with Swarco central software development for core architecture activities in Germany.

Key responsibilities

- Implement/document/test software solutions using .NET (C#)
- Design new services and enhance existing ones using Message-Broker-Communication (MQTT)
- Perform Design-, Code- and Peer-Reviews of your colleagues
- Work in an agile environment, develop and optimize processes and best practices
- Interpret customer requirements specifications generating functional requirements documentation for software
- Maintain software development to company quality standards while helping to attain the highest security standards for our cloud systems
- Looking at improvements to the development process to maintain the leading-edge software development tools and techniques

Your Profile

- Leading software development
- Interpreting customer requirements and generating specifications for software developers
- C# .NET 5+ Programming language
- Experience/knowledge of using ASP .NET Web API, gRPC, RabbitMQ, Redis or similar technologies
- Good organisation skills and ability of working on own initiative
- Atlassian Toolset JIRA, Confluence and Bitbucket
- Appreciation of Docker Kubernetes containerisation and deployment
- Appreciation of Typescript & .NET backend services
- Appreciation for connecting cloud systems to live equipment which may include via mobile comms
- 2:1 or better Degree in BSc Computer Science or equivalent
- Minimum of 5 years software development experience
- Minimum of 2 years experience leading software developments
- Commercial software development experience
- Right to live and Work in the UK

Your Benefit

As well as providing a competitive salary and benefits package, we actively run employee opinion surveys as part of our drive to provide a comfortable and supportive working environment. We will support your development and you will also receive:

- 25 days holiday with bank holidays in addition, increasing with length of service

- Your Birthday off
- Employer pension contributions
- Employee Assistance Programme
- Life assurance up to 6x salary

Interested?

Apply Today! We will acknowledge receipt of your application and be in touch if you are successful.

Applications are shortlisted on a rolling basis, and we reserve the right to interview and appoint before any advertised closing date. We therefore, encourage you to apply at the earliest opportunity to avoid disappointment. Applications received after the closing date will not be processed.

We have a responsibility to ensure that all employees are eligible to live and work in the UK, therefore successful candidates must have the right to work in the UK by the start of their employment. We are an equal opportunities employer. Please note,

Agencies, please note, that should we require recruitment agency involvement, we will contact the agencies on our PSL; we would ask that you respect the relationships we have already built with these suppliers. If an agency submits an unsolicited CV to any partner or employee of our company for a role we have not actively engaged with you on, you should be aware that they have no authority to enter into an arrangement with you and we will consider the CV a gift! We will not be liable for any payment you charge in relation to it.
