

SWARCO FUTURIT is one of the world's leading producers of LED-based signaling and lighting technology. System integrators and transportation authorities in over 70 countries rely on SWARCO FUTURIT's outstanding quality "Made in Austria".

If you enjoy working in a creative and self-organized manner and are used to communicating and bringing together diverse interests in organizations in a solution-oriented and practicable way to reach joint, viable decisions, then apply and become part of the SWARCO team as

Software Portfolio Manager

Location: Perchtoldsdorf / Lower Austria / Austria | (m/f/d) / full-time (38,5 h) | Hybrid

Your Challenge

- Responsibility for the planning, control, further development and optimization of the software portfolio in the area of our LED variable message signs
- Coordination of software product management activities with a focus on development, sales, customers and marketing
- Identification of customer requirements, development of technical solutions, configuration of products, tests & analyses
- Management of new and further product developments and design of the product roadmap
- Creation of concepts and requirements specifications for new software solutions
- Operational transition of newly developed products directly at the production site
- Advising and supporting internal and external customers throughout the entire product life cycle

Your Profile

- Completed studies (Uni/FH/HTL) with a business/information technology focus (e.g. computer science, software, information or system engineering) or several years of professional experience as a developer or system engineer in the software sector
- You are used to being available as a contact person for various departments or organizations and to networking with them
- Analytical and conceptual way of thinking as well as independent and solution-oriented way of working
- Good written and spoken English skills for the implementation of international projects
- Strong communication and teamwork skills

Your Benefit

- Varied, challenging and exciting tasks with the market leader in LED variable message signs
- Team-oriented and friendly corporate culture
- Extensive development opportunities and further training opportunities (e.g. SWARCO Academy)
- Flexible working hours (flexitime agreement) including the option to work from home
- Discounted lunch and various employee events
- Additional benefits such as a job bike, an extra day off for your birthday, health promotion programs (e.g. vaccination campaigns, medical check-ups, etc.)

The gross annual salary for this position is € 60,000.00 and will be agreed individually based on your experience and qualifications. This is well above the collective agreement for the electrical and electronics industry.

The future begins today. Yours too?
