

SWARCO ZEPHYR

INFOMOBILITY SOLUTIONS

The Better Way. Every Day.

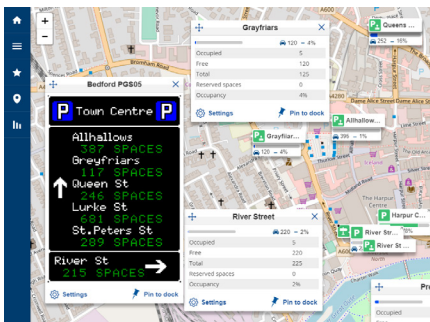

SWARCO Zephyr is the ultimate sign and parking management system. Zephyr provides a user friendly and powerful cloud based management system.

ALL MANAGEMENT FUNCTIONS IN ONE LOCATION

Key Features

- Access anywhere via web browser such as Chrome, Edge or Firefox
- Any message, image or pictogram can be uploaded using simple drag and drop, free text or via bitmap
- Easily locate assets on a detailed map.
- Quickly view asset status, schedule and fault reports
- Each user can set personalised settings, logon details and customise the interface to suit their needs
- Reduces the need for scheduled site visits
- TSRGD Rule checker to ensure any free text messages meet the required highway standards
- Statistical information, timetabling messages and setting mass messages are a great feature for implementing strategies
- Remote monitoring and reporting of communication, message setting, communications or LED status
- Hosted in a secure ISO27001 certified datacentre, information is safe yet accessible
- Communications include GPRS, Mesh wireless and 3G/4G
- UTMC compatible

ASSET MANAGEMENT

With Zephyr you can remotely monitor signs, detectors and car park information from a single central system. With an easy to use interface and access via a web browser, this is a simple and effective way to manage traffic.

LOCATING ASSETS

Key features include a detailed pan/zoom map which clearly locates each asset. Managing moveable trailers, signs and car park counters is simple.

URBAN ENVIRONMENTS

Urban environments need to be closely monitored to keep them running smoothly. With Zephyr, managing urban environments is made simple; it is also UTMC compatible.

INFORMATION

Zephyr provides users with asset information, including current set messages, timetabling and precise fault logging. It also provides in-depth statistical reports.

SECURITY

A Hosted Solution provides ultimate security and convenience. All accounts are password protected, with password reset available. All information is held at a ISO270001 certified data centre.

ASSET COMPATIBILITY

Remotely manage a variety of sign types, controllers and counters with the click of a button.

Assets you can manage include Variable Message Signs and Trailer VMS, Car Park counters, Vehicle Activated Signs and School Warning Signs.

Sign Type	Timetabled operation	Schedule messages	Location pinpoint	Fault monitoring	Set free text messages and Pictograms	Statistical data	Message Control
School Sign	●		●	●		Optional	
Vehicle Activated Speed Warning Signs			●	Optional		Optional
